

Project number	Project title	Research organisation
Researcher Projects for Experienced Scientists		
350187	Conflict-related attacks on education and children's lost life opportunities (EdAttack)	The Peace Research Institute Oslo
350693	Fano manifolds, wall structures and torus fibrations	University of Stavanger
351033	Disorder Induced Ordering in Gallium Oxide (DIOGO)	University of Oslo
351037	Imaging the Big Bang through gravitational waves with LiteBIRD	University of Oslo
351058	Endometriosis and adenomyosis throughout the life-course	Norwegian Institute of Public Health
351123	NASTRAN: Numerical Analysis of STochastic tRANsport	University of Oslo
351131	Viking to Christian Landscapes across the Norwegian Sea: Agricultural Trajectories and Resilience using sedaDNA and Fecal Lipids	UiT The Arctic University of Norway
351148	Establishment of a long non-coding RNA (lncRNA) cell type enrichment atlas with a focus on endothelial enriched lncRNA function	UiT The Arctic University of Norway
351166	Developing mRNA vaccines to fight viral diseases in Atlantic salmon	University of Bergen
351985	Reconstructions of UV-B radiation across the Laschamps Geomagnetic Excursion	University of Bergen
352031	Cytokine autoantibodies reveal monogenic inheritance of endocrine autoimmunity	Bergen Hospital Trust
352052	Recording Explosive Munitions for the analysis of WAR crimes	The Peace Research Institute Oslo
352116	Duplicate Divergence in three Dimensions	Norwegian University of Life Sciences
353378	Cosmic Dust Injection into the Upper Earth Atmosphere	UiT The Arctic University of Norway
Researcher Projects for Early Career Scientists		
350632	Influence of land-use changes on ecosystem services: crop pollination services, and nature connectedness of people in tropical Asia	Norwegian University of Life Sciences
351726	Photography as a Survival and Diaspora-Building Tool in the Aftermath of 1915	University of Oslo
352039	An Architecture of Chronic Illness: A Critical Exploration of Norwegian Buildings and Bodies from Post-war to Post-pandemic	Norwegian University of Science and Technology
353275	IslandParadox - Unraveling the Paradox of Genetic Diversity in Isolated Oceanic Lineages	University of Oslo
353356	Worm Forest EcoSysTems in Arctic hydrothermal vents and cold seeps	University of Bergen
Three-year Researcher Project with International Mobility		
351036	The Fora of Rome and their Christian Graffiti (4th-8th centuries)	University of Bergen
353397	Vulnerability of Nordic bat species to climate change: identifying seasonal bottlenecks across latitudes (NordBats)	Norwegian University of Life Sciences
