

Prosjektnr.	Prosjekttittel	Forskningsorganisasjon
Forskerprosjekt for erfarne forskere		
350187	Conflict-related attacks on education and children's lost life opportunities (EdAttack)	Institutt for fredsforskning
350693	Fano manifolds, wall structures and torus fibrations	Universitetet i Stavanger
351033	Disorder Induced Ordering in Gallium Oxide (DIOGO)	Universitetet i Oslo
351037	Imaging the Big Bang through gravitational waves with LiteBIRD	Universitetet i Oslo
351058	Endometriosis and adenomyosis throughout the life-course	Folkehelseinstituttet
351123	NASTRAN: Numerical Analysis of STochastic tRANsport	Universitetet i Oslo
351131	Viking to Christian Landscapes across the Norwegian Sea: Agricultural Trajectories and Resilience using sedaDNA and Fecal Lipids	Universitetet i Tromsø - Norges arktiske universitet
351148	Establishment of a long non-coding RNA (lncRNA) cell type enrichment atlas with a focus on endothelial enriched lncRNA function	Universitetet i Tromsø - Norges arktiske universitet
351166	Developing mRNA vaccines to fight viral diseases in Atlantic salmon	Universitetet i Bergen
351985	Reconstructions of UV-B radiation across the Laschamps Geomagnetic Excursion	Universitetet i Bergen
352031	Cytokine autoantibodies reveal monogenic inheritance of endocrine autoimmunity	Helse Bergen HF
352052	Recording Explosive Munitions for the analysis of WAR crimes	Institutt for fredsforskning
352116	Duplicate Divergence in three Dimensions	Norges miljø- og biovitenskapelige universitet
353378	Cosmic Dust Injection into the Upper Earth Atmosphere	Universitetet i Tromsø - Norges arktiske universitet
Forskerprosjekt for tidlig karriere		
350632	Influence of land-use changes on ecosystem services: crop pollination services, and nature connectedness of people in tropical Asia	Norges miljø- og biovitenskapelige universitet
351726	Photography as a Survival and Diaspora-Building Tool in the Aftermath of 1915	Universitetet i Oslo
352039	An Architecture of Chronic Illness: A Critical Exploration of Norwegian Buildings and Bodies from Post-war to Post-pandemic	Norges teknisk-naturvitenskapelige universitet
353275	IslandParadox - Unraveling the Paradox of Genetic Diversity in Isolated Oceanic Lineages	Universitetet i Oslo
353356	Worm Forest EcoSystems in Arctic hydrothermal vents and cold seeps	Universitetet i Bergen
Treårig Forskerprosjekt med internasjonal mobilitet		
351036	The Fora of Rome and their Christian Graffiti (4th-8th centuries)	Universitetet i Bergen
353397	Vulnerability of Nordic bat species to climate change: identifying seasonal bottlenecks across latitudes (NordBats)	Norges miljø- og biovitenskapelige universitet
